Prof.  
Howard  
**GLUCKMAN**

Dr.  
Andrea  
**AGNINI**

Dr.  
Alessandro  
**AGNINI**

Maranello, Italy

27th - 29th June 2025

Prof.  
**HOWARD**

*Gluckman*

Prof. Gluckman is a globally recognized dental implantologist and lecturer, leading as Clinical Director at Enamel Clinic, Cape Town, and the Director of the Implant & Aesthetic Academy. Holding the position of Adjunct Assistant Professor at the University of Pennsylvania.

He specializes in immediate implant placement, soft tissue aesthetics, and periodontal plastic surgery. Proficient in autogenous bone augmentation, he is renowned for innovative techniques such as socket shield and root submergence. Prof. Gluckman has also held prestigious roles in various dental organizations.

Dr.  
**ANDREA**

*Agnini*

Dr. Andrea Agnini is a 2007 graduate of the University of Modena and Reggio Emilia and practices in Modena and Sassuolo, Italy. Dr. Agnini is specialized in Fixed Prosthetic Dentistry, Periodontology and Implant Dentistry.

He attended NYU College of Dentistry (2009-2011) as a Clinical Research Fellow. An international lecturer and author, he has published numerous scientific articles and the book „Digital Dental Revolution: The Learning Curve.” Dr. Agnini is part of the scientific committee at Studio Agnini Odontoiatria since 2008.

Dr.  
**ALESSANDRO**

*Agnini*

Dr. Alessandro Agnini is a graduate of University of Modena and Reggio Emilia and he operated dental practices in Modena and Sassuolo, Emilia Romagna. Dr. Agnini specializes in Fixed Prosthetic Dentistry, Periodontology and Implant Dentistry, trained by Dr. Gianfranco Di Febo, Dr. Gianfranco Carnevale and Dr. Mauro Merli.

Since 2006, he's been a member of the Italian Academy of Prosthetic Dentistry. He lectures at Dental XP, authored „The Digital Revolution” and joined the Italian Academy of Osseointegration and Esthetic Dentistry in 2019. He also serves on the directory board of the Italian Academy of Prosthetic Dentistry.

# ABSTRACT

**Everything you need to know** to become the quarterback of your implant restorative process, before and after the placement. This program will deep dive you, thanks to its pragmatic clinical over the shoulder modality, in all the various critical tips and pearls necessary to deliver successful digital restorative dentistry applications on implants and maximize the efficiency in your daily clinical routine.

**You will be able to understand** the realistic option of chair-side solutions and empower the utilization of your scanner, improve the Restorative-Surgeon Technician link and solve cases in a digital manner.

**Become more efficient by mastering digital solutions.** A combination of lectures, live Demo and hands on exercises, so you can truly grasp the power of digital implant restorative dentistry, start doing what you learned immediately.

# ***LEARNING OBJECTIVES***

**How to diagnose and treatment plan a full arch case?  
Team Communication - Referral Strategies**

**Focus on indications and guidelines for edentulous arches  
and failing dentition patients**

**CBCT Software Analysis - Which Information are providing Us?**

**Surgical Strategies - Straight and Tilted Implants Rationale -  
Prosthetic Guided Surgery**

**The Prosthetic Component Rationale - Multi Unit Abutments:  
Straight- Tilted - Height?**

**Technical Tips and Tricks - How to achieve Accuracy, Strength and Passivity on  
the Immediate Fixed Provisional Restoration on Implants**
